

# We offer a full range of products that work together in your application.

## Air Circulators

For health and safety as well as comfort, when the weather turns warm Airmaster Fans provide the cooling action necessary to keep employees happy and productive. An incredibly wide selection of air circulators, spot coolers, Mancoolers®, and air blasters provides just the right unit for your application

## Ventilation

The next pillar for effective indoor air quality is building ventilation. Make your building breathe properly. Airmaster panel fans, roof ventilators, shutters, and louvers are the key

## Heaters

When the weather becomes chilly, Airmaster provides electric heaters to keep employees warm at their workstation or even in offices / retail where additional heat is desired. From "Milkhouse" to "Mask" to portable ceramic and all the way up to large electric salamanders, we have the products to keep you warm.
